

## Circular Grit Trap CGT

- Modern construction from robust certified stainless high quality materials
- Separated mixer drive unit and sand pump for simple design
- Thick wear resistant easy replaceable mixer arms from the worlds strongest mixer maker
- Concrete internal or freestanding version

Capacity 60-3000l/s

Circular Grit Trap CGT separates sand from water.

The sand/water flows tangentially into the circular separation tank where a stable level and vortex is maintained by a mixer and outlet weir.

A peripheral air lift pump extracts the settled sand. Wet or dry mount centrifugal pump versions are also available as well as dewatering outtake screw.

Andersson Water has hundreds of international references and has worked with machinery within water treatment for over 20 years.

We offer the most innovative solutions and the most extensive knowledge on screening equipment.

All our products are made acc to ISO & CE standards,

We have strong steel working traditions and high quality culture.

We only use certified materials and welders.
