

## Compact Combi Unit CCU

- Modern construction from robust certified stainless high quality materials.
- Compact design with large surface & volume acc to ATV.
- Alternative screen technology. Stair Screen, Spiral Sieve Screen, Channel Drum Screen
- Alternative screenings treatment. Wash Press Compactor, Shaftless Spiral Compactor etc.
- Alternative grit trap type. Rectangular with or without aeration and grease trap. Circular vortex,
- Hydraulically sized acc to international norms.
- Enclosed, safe & hygienic with easy to open access doors.

Capacity 5-500l/s

Compact Combi Unit CCU is a complete mechanical pre treatment system for waste water treatment. An alternative to concrete tanks.

A typical Compact Combi Unit CCU can consist of:  
Screenings separation with Stair Screen ASS or PSS.  
Screenings treatment with Wash Press Compactor WPC.  
Sand separation in rectangular grit trap or circular vortex grit trap CGT.  
Aerated or non aerated grit trap.  
Sand treatment with bottom conveyor and discharge/dewatering conveyor or pump sand outtake.  
Grease separation with skimmer, scumbeach, collection hopper.  
Blower and grease pump.

Andersson Water has hundreds of international references and has worked with machinery within water treatment for over 20 years. We offer the most innovative solutions and the most extensive knowledge on screening equipment. All our products are made acc to ISO & CE standards, We have strong steel working traditions and high quality culture. We only use certified materials and welders.
