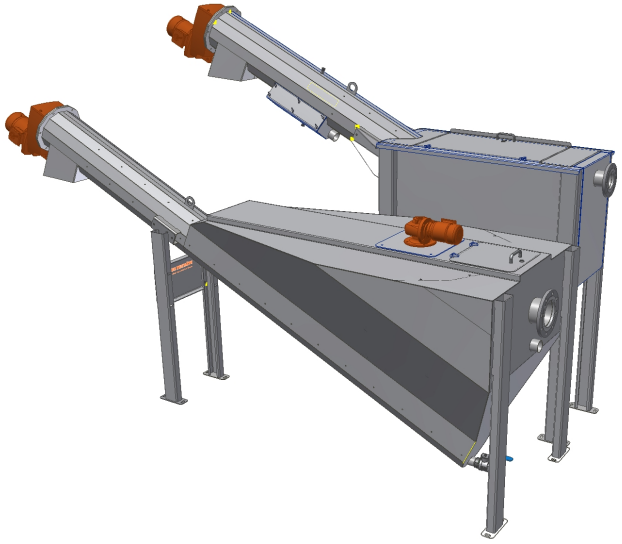
andersson water

engineering & machinery for water & waste treatment

Small Combi Unit SCU

- Modern construction from robust certified stainless high quality materials.
- Module design enables change of screen equipment in the system. Spiral screen or step screen.
- Alternative screenings treatment. Integrated or Wash Press Compactor.
- Enclosed, safe & hygienic with easy to open access doors.

Capacity 5-30l/s



Small Combi Unit SCU is a complete mechanical pre treatment system for waste water treatment. An alternative to concrete tanks.

A typical Small Combi Unit SCU consists of:
Screenings separaration with Andersson Stair Screen ASS.
Screenings treatment with Wash Press Compactor WPC.
Sand separation in grit classifier with discharge/dewatering conveyor.
Grease separation compartment with circular skimmer and scumbeach.

Andersson Water has hundreds of international references and has worked with machinery within water treatment for over 20 years.
We offer the most innovative solutions and the most extensive knowledge on screening equipment.
All our products are made acc to ISO & CE standards,
We have strong steel working traditions and high quality culture.
We only use certified materials and welders.
