

## Rectangular Grit Trap RGT

- Modern construction from robust certified stainless high quality materials
- Aerated or non aerated, With or without integrated grease trap and skimmer.
- Sand pump pipe systems in series for simple design
- Pump types: Air lift, Submerged, Semi submerged, Dry mount
- Optional integrated grease separation chamber with CSS Chain Scraper Skimmer
- Concrete or freestanding tank version CCU Compact Combi Unit

Capacity 60-3000l/s

Rectangular Grit Trap RGT separates sand from water.

The sand/water flows into the rectangular separation tank where a stable level is maintained by an outlet weir. Sand pump pipes in series extracts the settled sand by air lift, wet or dry mount centrifugal pump. Grease can be separated with an optional integrated grease trap baffle wall. Versions are also available with dewatering outtake screw.

Andersson Water has hundreds of international references and has worked with machinery within water treatment for over 20 years.

We offer the most innovative solutions and the most extensive knowledge on screening equipment.

All our products are made acc to ISO & CE standards,

We have strong steel working traditions and high quality culture.

We only use certified materials and welders.
